Subject: Markievicz bursary scheme for female artists

Hi, I would like to draw your attention to the Markievicz bursary scheme for female artists, I feel this was a bit of cynical politics jumping on the popularity of feminism and discriminates against male artists solely by their sex.

I am a graduate of [REDACTED], but at [REDACTED] I have no interest personally in this bursary.

I just feel this a bit of feminist overreach and hardly is an example of equality they talk about so much about
