

Policy “Cheap Food”

Less People
Larger Machines

Larger RISK
Smaller Return

Get a Qualification

Less Rotation
Less Market outlets

Lower Soil Carbon
More Compaction

Less Soil Health
Less Mixed Farming

Caring for the Soil, the skin of the Earth

Three Pillars

- Cover Crops
- Crop Rotation
- Reduced Tillage

“The Golden Hoof” Animal Integration

Soil Health

- Carbon Cycle
- Water Cycle
- Nitrogen Cycle

Regenerative

- Intercrop
- Companion Crop
- Living Mulch

Diverse Monoculture

- Mixtures
- Populations
- Adapted

Conservation Agriculture: Farmers teaching Farmers

Diverse Wildlife

- Land Sharing
- Edge Effects
- Pollinators

FOOD

- Nutrient Dense
- Short Supply Chain
- Resilience

HEALTH & DIVERSITY

- Soil
- Plants & Animals
- Humans

Biological Solutions

- Biochar
- Compost
- Anaerobic Digestion

Agroecology vs The Market
