

## PUBLIC CONSULTATION - CITIZENS' ASSEMBLY ON GENDER EQUALITY 2020

### QUESTIONNAIRE

CA30042

Name: Kevin O'Connor

#### **Theme 1: Gender norms and stereotypes**

##### Gender norms and stereotypes as barriers to gender equality

Fixed ideas about what women and men should do in the home or at work are learned by girls and boys in early childhood and throughout their lives. These ideas or gender stereotypes affect their choices in school and as they enter careers and contribute to a lack of progress toward equality between women and men. This limits not only the jobs that women and men consider or are available to them, but also can exclude women and men from social roles and tasks.

- Please outline what you see as the key barriers/ obstacles and challenges to gender equality under this theme in law, policy and practice.

I feel the law favours women over men in the family courts.

- Please identify the steps to be taken to address the issues raised and who should address them (e.g. the state, private sector, education system etc.)

The state must insure that a father has equal right as the mother when it come to children and the family home. At presnt the court almost allway sides with the mother.

#### **Theme 2: Work: Occupational segregation by gender, gender discrimination and the gender pay gap**

Women and men are often concentrated into different kinds of jobs and within the same occupations, women are often in work that is less well paid and has less opportunities for career advancement. Women often work in areas where they can work part-time so as to fit in with their caring responsibilities. While many men work in low paid jobs, many professions dominated by women are also low paid, and professions that have become female-dominated have become lower paid. This worsens the gender pay gap (the average difference between the wages of women and men who are working).

- Please outline what you see as the key barriers/ obstacles and challenges to gender equality under this theme in law, policy and practice.

Why is this them focused on inequality towards women ??

- Please identify the steps to be taken to address the issues raised and who should address them (e.g. the state, private sector, education system etc.)

The change that Mary Mitchell O'Connor made that certain jobs should only be advertised for female only must be removed as it is both gender discrimination and inequality toward men. If not removed it should be brought to the ECJ.

### **Theme 3. Care, paid and unpaid, as a social and family responsibility**

Care -- the social responsibility of care and women and men's co responsibility for care, especially within the family

Women remain disproportionately responsible for unpaid care and often work in poorly paid care work. For working parents or lone parents, balancing paid work with parenting and or caring for older and dependent adults presents significant challenges. Women are most disadvantaged by these challenges, yet men also suffer from lack of opportunities to share parenting and caring roles. Despite recent legislation and policy initiatives to support early years parental care, inequalities in the distribution of unpaid care continue between women and men. The cost of childcare has been identified as a particular barrier to work for women alongside responsibilities of caring for older relatives and dependent adults.

- Please outline what you see as the key barriers/ obstacles and challenges to gender equality under this them in law, policy and practice.

One again this is biased towards females. As a father of 3 kids i do a much in the home as there mother. Fathers should get same maternity leave as mums

- Please identify the steps to be taken to address the issues raised and who should address theme (e.g. the state, private sector, education system etc.)

Give both parents equal leave when their child is born. Education in this area also

### **Theme 4: Women's access to, and representation in, public life and decision making**

Ensure women's participation and representation in decision-making and leadership in the workplace, political and public life

Women are systematically underrepresented in leadership in economic and political decision-making. Despite the introduction of a candidate gender quota (through the system of party funding) for national political office, and initiatives to support women's access to corporate decision-making roles, men continue to dominate leadership positions. There are also issues to be considered around how media represents women and men.

- Please outline what you see as the key barriers/ obstacles and challenges to gender equality under this theme in law, policy and practice.

No barriers Women showed no interest in recent election to vote for female candidates

- Please identify the steps to be taken to address the issues raised and who should address them (e.g. the state, private sector, education system etc.)
